

Family Connects is here for you

When you leave the hospital, a registered nurse can come to your home at no cost to check on you and your family, and offer support in any way we can.

We will call to check in

When you get home from the hospital, we will call to check in with you and see if you would like a nurse to come to your home.

A nurse comes to see you

A registered nurse will come to your home at a time that is convenient for you. If you prefer to meet somewhere else, we can do that too.

You get support with whatever you need

This visit is a safe space for you to get the emotional and physical support you and your family need. You can use the time to talk, get a postpartum check up, get connected to other resources — whatever is most helpful to you. We are here to make sure you and your family get the personalized care and attention you need.
